

PARK COUNTY HISTORICAL SOCIETY PRESENTS

# “Native American Prayer Trees”

by

**John Anderson**

This presentation is based on two books written by John. *The Ute Indian Prayer Trees of the Pikes Peak Region* and *Native American Prayer Trees of Colorado* are not just about Culturally Modified Trees; they are about the advanced culture of the deeply spiritual people behind these trees.

The Ute were among the Native American people who modified trees for navigational, spiritual, burial, medicinal, nutritional and educational purposes.
