

PAPAKAIO SCHOOL

203 Access to School by High Schools

Rationale

Most years Papakaio School is asked by High Schools for access to children and families for the purpose of promotion and recruitment. It is important that Papakaio School is fair and is seen to be impartial in its dealings with High Schools.

Policy

- We maintain our obligations under the Privacy Act to protect student and family information: Therefore we will pass on/out information as supplied for families but not pass on contact information regarding specific students or their families to high schools.
- We will grant equitable access to schools wishing to promote or recruit. Therefore if a key purpose for a visit or an event run at school is to attract enrolments, schools are limited to two such visits per year.
- Where it is unclear whether an approach is about promotion and recruitment or something else the Papakaio Principal will discuss this policy with the High School Principal involved.
- We encourage in addition to this, High Schools to work closely with us around transition of students and curriculum.
