

## 602 Policy for Student Equity

### *PURPOSE*

Equitable treatment of all children.

### *GUIDELINES*

1. To ensure equal treatment of all children in all areas regardless of their individual make-up.
2. That no child be disadvantaged in accessing school activities by their socio-economic background.
3. To seek support from the Ministry of Education to up-grade school facilities to meet the requirements of disabled students if and when required.
4. To ensure equal treatment of all ethnic groups.
5. The BOT will provide the Principal with discretionary funding to support children in accessing school activities where cost is a barrier to full participation.
6. The BOT will ensure that decisions are made taking diversity of our community into account.
7. All children enrolled at our school will receive the support they need to fully participate in school life.
8. The BoT recognises that to achieve equity, varying degrees of support will need to be given.
