NEW YORK.

## To the Trade

With this, my nineteenth edition, I have endeavored to list and illustrate the most staple of my goods and novelties. It is impossible, however, to include everything, from the fact that we are getting out novelties from time to time. So we will keep you posted on these novelties by additional literature, which we will issue on subsequent dates.

Soliciting a continuance of your esteemed patronage and assuring you that your orders will always have my careful attention and will be executed at the best possible figures, I remain,

Very respectfully yours,

WILLIAM R. NOE.

Without " " " - 7.78

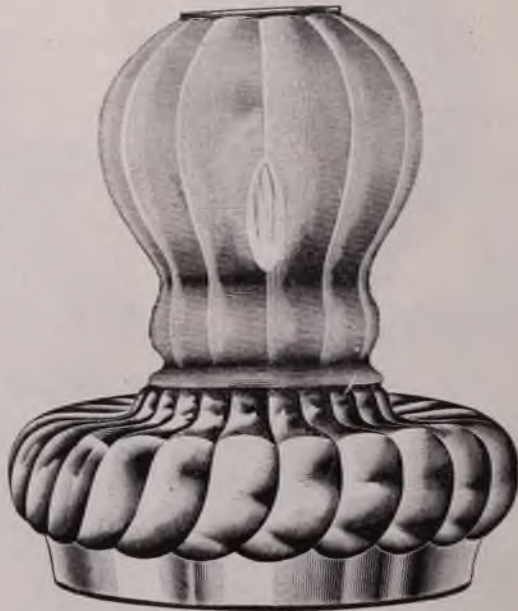

Do You Burn a Light all Night?

## The "Glow Night Lamp."

A Scientific Wonder ! No Smoke ! Positively No Smell ! No Waste !

All Glass. Consumes Its Own Gas. Cannot Leak.

Style No. 1.

Burners for Glow Lamps, packed 3 dozen in a box, - - - \$1.67 dozen.

Patented in the United States, Great Britain, France and Austria.

Burns Kerosene Oil.

Made in two styles, in colors Opal, Green, Blue, Purple, Amber and Ruby. Our Leader in No. 1 is composed of Crystal base and Opal globe.

One Pint, costing about One Cent, will feed this lamp 200 hours.

Invaluable for bedrooms, sick chambers, all-night hall and bath room light nurseries, lavatories, dressing rooms, staircases, etc., etc.

This invention has for its object the production of a novel lamp, particularly desirable for use as a night lamp. Lamps for this purpose need not produce a large flame, in fact a comparatively small flame is more desirable, but it is also desirable that the lamp be capable of burning for a long period of time without refilling and without attention, and without emitting any odor. These results we have positively obtained.

All Crystal, assorted Opal, Green, Blue, Purple and Amber, \$5.00 per dozen; \$60.00 per gross. All Ruby, \$10.00 per dozen.

Asphyxiation, Gas Poisoning or Suffocation by Gas an impossibility.

## Night Lamps

### LITTLE RED RIDING HOOD

FINISHED IN RED ENAMEL.

HALF SIZE

\$1.88 per dozen,  
22 24 per gross.

### COMET

## The "Aurora" Glass Cone Burner.

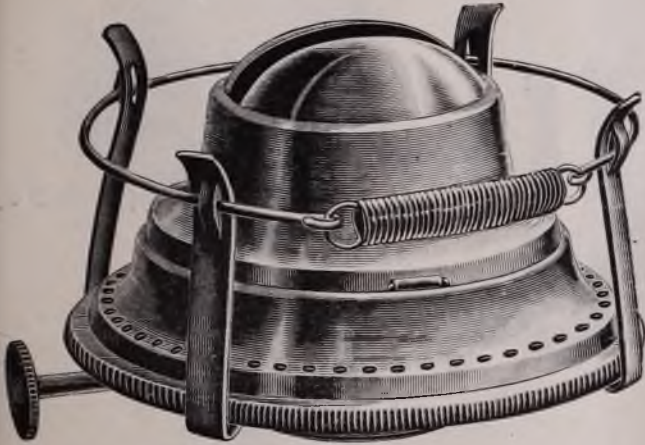

EACH BURNER PACKED IN A CARTON.

The "Aurora" gives about one-third more light than a brass cone burner. Will last five times as long as a common burner. Can be used on an ordinary lamp. Can be easily kept clean—hence it will always look as good as new.

The whole secret lies in the fact of its having a glass top.

	PER DOZ.
A	\$4.00
B	4.44
